## A MESSAGE FROM THE ROTARY CLUB MALTA PRESIDENT

Rotary Club Malta is well known for its humanitarian projects, both locally and abroad, which reflect its mission of service to the community. This year the club is sponsoring a project together with the Malta Red Cross Society which will be unique for Malta.

Anyone who has had the misfortune of having to travel to hospital as a patient in an ambulance will probably tell you how daunting such a trip could be. Surrounded by monitors, intra venous drips, defibrillators and other sophisticated equipment there is often a feeling of claustrophobia and anxiety, especially if the individual is ill or in pain. This anxiety can turn to fear if the patient happens to be a child. Hundreds of trips are carried out every year transporting sick children in Malta, some feverish, some in pain from trauma, some on their way to receive chemotherapy.

Our Rotary club and the Malta Red Cross are combining to launch an ambulance dedicated to child transport. This will be converted in such a way that, while all the internal equipment will be of the highest standards, it will be camouflaged to distract the child. The outer livery will be Disney-type while the equipment inside will be arranged such that no drips or needles will be visible. The accompanying Red Cross staff is trained to distract the child while offering optimal nursing care.

This is an expensive project. Rotary Club Malta has bound to contribute about €25,000 for the project. The Malta Red Cross, which will cover the remaining financial commitment, has already initiated discussions with the British Red Cross to get the best possible deal for a top class ambulance which will be upgraded and converted locally by experienced Red Cross personnel.

In order to raise these funds Rotary Club Malta is organizing a Gala Dinner Dance offering an entertaining evening while making contributions for this very worthy cause.

We ask you to support this cause. It is one way of helping us to continue with our humanitarian projects of service to the community.

Carmel Lino Cutajar  
Rotary Club Malta President 2016-2017

## ABOUT THE EVENT

Join us on **Friday 12<sup>th</sup> May 2017** for our ANNUAL CHARITY GALA FUND-RAISING DINNER DANCE, where this year we are raising funds for the equipping and transformation of an ambulance specially designed for the transportation of children in conjunction with the Malta Red Cross Society.

This annual event has proven to be extremely popular with individuals and companies, as it is one of Malta's unique events of the year when companies can host their topmost clients, suppliers or senior personnel confidently, in the best of social tradition. By booking a corporate table of 10 in the name of your company or organization, you will be able to entertain your guests while contributing to our community. The cost of a corporate table for 10 persons is €1,200.

Your company will be recognised as one of the corporate sponsors during the event where your logo will be shown on your table stand, in the banner of the corporate sponsors displayed during the evening as well as being publically thanked by Rotary Club Malta's President.

The Rotary Club Malta Gala Dinner 2017 will be held at the **InterContinental Arena Conference Centre** in St. Julian's and entertainment and dancing will be from the crowd-pulling **Red Elektrik band**. This award-winning, local band will provide the after dinner dancing into the early hours.

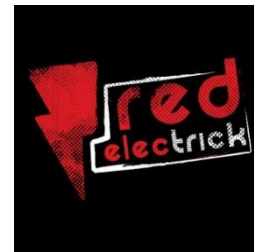

By booking a table, you and your guests will be joining Rotarians and other executives and their partners in an upbeat and friendly atmosphere for a night you will long remember. So, by making a booking today, you will be making a wonderful contribution to Rotary and more specifically, towards the funding of a 'new child friendly' ambulance.
