

# SAVE A TREE WITH ROTARY

**We have a unique opportunity to save an important part of Ontario's heritage AND contribute to the fight against climate change.**

A red oak tree that's older than Canada and was recognized as a Heritage Tree in 2009, stands on a property that's scheduled for sale. The City of Toronto has promised to buy the land to build a parkette for the enjoyment of future generations. **We have until December 12 to close a fundraising gap of \$200,000.** We need to act fast!

Join us on online on Thursday, November 26 to find out why we need to protect this tree and how you can help.
