

IMPORTANT INFORMATION

STAGING" & "PARADE LNE-UP" at the West Irondequoit High School

STAGING:

Staging is the process where participants will gather within their assigned Section and remain in their groups until directed to begin the Parade Procession.

PARADE LNE-UP:

Parade line-up is the process where participants and groups will be placed in their numerical order within their Section, just prior to stepping off in the parade march.

Participants are asked to report to their assigned Section and locate others within their group.

Maintaining the group together is most important in preparing for the Parade Line-up.

Approximately 10 minutes before the parade starts, beginning with Section A, staged groups will begin their parade Line-up in numerical order. As Section A moves out, Section B will be arranged in their Parade Line-up in their numerical order. As Section B moves out, Section C will begin Parade Line-up in their numerical order; as Section C moves out, Section D will begin Parade Line-up in their numerical order.

Fire Departments Vehicles will begin their Parade Line-up on Cooper Rd; exiting the parking lot at the north driveway and in their order of participation as Section A begins.

Groups with multiple vehicles or large floats should stage in front of Dake Middle School and will be called into formation (by group and numerical order) as the Parade Line-up begins. Bands, staged on the front lawn of the high school, will be placed in their order of march by a parade staff member throughout the Parade Line-up process. Please watch "Staff" personnel for your "kick off".
