

**THE GOOD NEWS IS THE
WATER CRISIS IS SOLVEABLE**

WITH YOUR CLUB'S HELP!

We can partner together to make a life changing impact on four villages that would serve over 11,500 men, women and children through the gift of clean water and dental hygiene clinics.

The Rotary Club of Accra West in conjunction with their partners of Rotary Clubs of Dallas and Houghton, Michigan undertook a successful potable water, sanitation and dental clinics in the 2015/2016 Rotary Year with the Global Grant No. GG 1525726. The following villages were covered in the first project; Dunyo in the Greater Accra Region, Kojonya in the Yilo Krobo District, and Amanfro in the Akwapem North Region in the Eastern Region.

We are now proceeding to undertake a similar project in the following villages all in the Akuapem North District; Asenama, Mile 14, Okrakwadjo and Nyamebekyere. We believe the impact of the project will be felt more if done in the same area. Hence the choice of the same District -Akuapem North. Focusing on these villages, we would provide over 11,500 individuals with access to clean drinking water and dental hygiene.

As a Rotarian, we know there is always more work to be done. Please consider partnering your club alongside ours as we change lives through clean water and dental hygiene. The biggest need right now is cash contributions and later we will be inviting all partnering clubs to join us on the trip to perform the dental work and clean water inspection/ceremonies.

Please contact Tom Franklin if you are interested in a presentation on the project to be done at your Club and/or to become a partner Club and contribute cash contributions towards the Rotary Foundation for this global grant.
