

ROTARY DISTRICT 6440 ENVIRONMENTAL COMMITTEE

INVITES YOU, YOUR FAMILY, AND/OR YOUR CLUB TO PARTICIPATE IN THE

Fox River Clean-Up Day *September 19, 2020*

In collaboration with the Friends of the Fox River, our District 6440 is encouraging all area environmental lead members and clubs along the Fox River watershed to consider participating. Visit friendsofthefoxriver.org for the event Toolkit.

What to Do to Participate

- Visit friendsofthefoxriver.org for the event Toolkit
 - Click on **Events** among the top headers
 - *Select* – It's Our Fox River Day + Organize a River Cleanup - *Click*
 - Read and Register your club providing the contact information requested in the fields with (*)
 - A Link to the [River Cleanup Organizer's Toolkit](#) is available on that page, right above the form.
 - The FriendsOfTheFoxRiver will then contact you to review and assist with the logistics
 - Should you not be located on this watershed, your participation is most welcomed by contacting a Rotary club on the Fox River, the area Lead Champion or by registering as a volunteer with FriendsOfTheFoxRiver.
- Multiple club participation will greatly increase the environmental impact, enhance Rotary's public image and recognition of Rotarians as community partners and environmental advocates.
- Do bring water, sunscreen, work gloves and plastic buckets in which to place the debris; identify a collection area and take pictures - of yourself, your families and what you collect, and submit them to the club you are participating with.
 - As these are trying times, limiting #s by the hour and monitoring and maintaining social distancing is critical and every member's comfort level needs your full attention.

Thank you!

And thank you to the lead committee members

- *Northern region- Antioch-Cary Grove* - Dawn Cassiday Turner
- *Central region- Algonquin-Dundee* - Dody Lesueur
- *Southern region- Elgin- Batavia* - Teri Dykhuis
