

The Collegeville Rotary Club and the Collegeville Fire Company are working together to serve our community. We celebrate our Third Annual Golf Outing on Monday, July 10, 2017 to support our Fire Company.

The venue is the breathtaking Bellewood Country Club (400 E. Schuylkill Road, Pottstown PA), known for its outstanding golf course and fine dining. The day will include full access to the course, lunch, prizes, raffles and dinner at the elegant club house facilities. The format will be a 4-person scramble with prizes awarded for the first three places. Skills events will also be included.

We are asking for your participation in our golf outing, either through challenging your fellow golfers, by contributing to our raffle to make the day more enjoyable, or by a direct financial pledge.

For Raffle Donations, contact Mary Cook Email: collegevillerotary@gmail.com

All donation items must be received no later than Friday, June 30, 2017

The Collegeville Rotary Club was founded in 1949 and has been active in our community since that time. We are proud to share the Rotary tradition of "Service above Self", supporting projects throughout the community as well as internationally. With 1.2 million Rotarians around the world, we are part of a force that can, and does, change the world. Please see our website for information about some of the service projects in which our club is involved, or join us at one of our meetings or social events. We meet weekly at 6:00 pm on Wednesdays at Ursinus College, Wismer Center.

Visit us at www.collegevillerotary.org

The Collegeville Fire Company was chartered in 1891 with the mission of preserving life and property from destruction by fire or other disaster, whether man made or natural, in the Collegeville Borough and neighboring municipalities. Made up entirely of volunteers, our membership includes young and veteran firefighters. We are accountants, lawyers, computer technicians, mechanics, students and business owners ... but most importantly we are your neighbors. We respond to approximately 300 calls per year for everything from odors of smoke & gas and minor questions to automobile accidents with severe injury and fires that devastate neighborhoods. We provide training in Fire Prevention and lessons to local schools and youth organizations. Few people realize that their community is under constant watch by men and women who do this work as volunteers, because we care about you and our community. This is why your support is so vital to us.

We ask that you participate in this effort by the Rotary Club to help sustain our efforts.
