Guest Speaker – 10 February, **Dr Jennifer Cronin**
President of Wharf Hotels Group
Hong Kong's Golden Age, still to come?

Dr Cronin was appointed President of Wharf Hotels in February 2016, after serving as Vice President Sales & Marketing from 2014. Previously, she held various senior management positions in leading international hotel groups including Hyatt International and Ritz-Carlton. Overseeing 17 hotels across the Philippines, Hong Kong SAR and mainland China, Niccolo Hotels and Marco Polo Hotels continue to strengthen as one of the leading regional players in the hospitality industry. Jennifer is usually based in Hong Kong, but currently stranded in Brisbane due to Covid travel restrictions

In 2019, Jennifer became Chair of the newly formed Hong Kong Heritage Tourism Brands alliance and is a member of the Tourism Recovery Industry Task Force for the Hong Kong Tourism Board, as well as a member of the Commerce and Economic Development Bureau's External Relations Committee. She has also been a member of the Global Hotel Alliance, Alliance Strategy Board since 2016.

Jennifer is a Queenslander and has years of living and working in Hong Kong so is well qualified to provide insights into the future of Hong Kong as a travel and business destination for Australians.

Guest Speaker – 17 February, **Stan Gallo**
What's it all about then? – Cyber Risk and the Dark Web

Stan Gallo is a Partner, Forensic Lead of the BDO East Coast Practices and National Lead of BDO Australia's Forensic Technology practice. As a former deep cover police operative, Stan has lived numerous lives, including trafficking in narcotics, firearms and electronic data. Having experienced these lives, Stan has a unique perspective on all manner of nefarious activities. A highly regarded risk management specialist, Stan now combines his unique insights, traditional investigative skills and forensic technology expertise to bring a different perspective providing advice and insights to organisations looking to minimise risk and assist them in responding to incidents.

Have you ever wondered what your electronic devices say about you? What your electronic footprint really looks like? Or what the 'Dark Web' is really all about? You are invited to sneak a peek behind the curtain and into cyberspace for a non-technical look at this dynamic frontier for business risk. Whilst the internet has fundamentally changed the way we do business, it is not without its own set of unique risks - Malware, Ransomware, Social Engineering, Intellectual Property theft, Fraud and rogue employees just to name a few. Stan and the BDO Forensic team spend their days undertaking complex computer and internet-based investigations in cyberspace and present a unique insight into what can - and does - occur on an almost daily basis. Littered with real life examples, this informative presentation will demonstrate what can happen when things go wrong, and what you can do about it. Join us for an interesting and enlightening look into this alternative universe of 1's and 0's and a discrete peek at the dark side.
