

Travel Guide # 6

Wednesday 28th September, 2022

Destination - The Kimberley

It's that time again, when we are able to get our next 'travel fix'.
Once again, we have a very special couple sharing their travel experience with us.
..this time a bit closer to home!

Make sure you bring along your partner, family and friends to enjoy 'travelling' to some amazing, interesting, historical and culturally fascinating places.

This month, we travel to the top of WA with Tim and Jane Moore, to explore the Kimberley, known for large swaths of wilderness defined by rugged ranges, dramatic gorges, semi-arid savanna and a largely isolated coastline.

The mostly unsealed Gibb River Road runs through the region's heart, passing by Windjana Gorge National Park, which has towering limestone cliffs and pools where freshwater crocodiles gather.
