

POETS 2020 - 2021

District Structure as support for Clubs

Rotarians and clubs sometimes do have the perception that District is there to watch and control them. I mentioned it earlier on: "There is no Rotary police". My philosophy is: The District has to serve you; its committees are at your service and you as Presidents can count on them; please approach the committee chairs and ask for assistance. We have six pillars as you can see on this slide. In the "**District Directory**", which you will get as an electronic copy but also 3 examples in print form, you will see the structure and the members of the respective subcommittees in more detail.

In addition to them we have installed a new committee, being the "**District Facilitation Support Team**" which I mentioned earlier on – see session 2

Your closest link to District is your **Assistant Governor**. I am proud to say that we have a fantastic team, I call it the A-Team, as you can see on my scarf. She or he (we have 6 female and 7 male AG's) are there to assist you. Please make use of them.

You will see the allocation of the AG's on an organogram which will be in the District Directory as well.

As part of our philosophy to improve our service, we have decided to install a support structure in Angola, Namibia and the Southern Cape with regards to membership, youth and PI. Di Kershaw will assist Suné, the AG for the Southern Cape; the names for Angola and Namibia will be published in the next couple of weeks.
