

CAREER GUIDANCE DAY

Do you have **2 hours to give** between
10h00 and 14h00 on the
31st August 2017?

Why?

Our Club is piloting an innovative new approach to providing careers & entrepreneurship guidance for school learners.

How?

We have worked together for many months with our pilot school to use a range of diagnostic tools to help learners focus clearly on finding their **PASSION** in life. In this way we can group them into work clusters and target our Guidance support so that it truly **INSPIRES!**

How can you help?

Our need is to partner with Rotarians and Industry Experts in sharing their Career paths, learning and work experiences in their chosen industries, to help the learners make informed career decisions.

Our Target Audience?

Grade 9 and 11 Learners

Where?

Oude Molen Academy of Science & Technology
Jan Smuts Dr, Pinelands, Cape Town, 7405

Our Vision

All clubs in the district to host and manage their own annual event in their respective communities.
