"A horse is an angel without wings."

Our mission is to provide therapeutic horsemanship programs to children, adults & families with special needs in order to improve physical, mental, emotional and social areas of their lives.

Located near Gettysburg, Pennsylvania, Shining Stars Therapeutic Ministries (SSTM) is a 501(c)3 non-profit organization serving local communities, generally in Adams and York Counties. Student registration is open to anyone 3 to 80+ years old with special needs. Instructor-guided therapy includes exercises and activities that provide opportunities for student challenge and progress.

Shining Stars receives client referrals from surgeons, neurologists, hospitals, schools, etc., with recommendations from Hershey Medical Center, the Mental Health/Mental Retardation organization, and United Cerebral Palsy. At present, the organization coordinates over 130 service-minded volunteers to implement its current programs. All volunteers are required to have background clearances and attend classroom and arena trainings.
