Reno Sunrise Rotary and Troop 154 Service project.

This is a small clean up service project that will be a joint Reno Sunrise Rotary and Troop 154 event. The Sparks Fire Department has at Station 2 (Baring and Truckee Lane) an outdoor sculpture to honor firefighters. As you can see from the photos below, it is being overtaken with weeds. The service project is to come in and clean up the weeds, etc.

For this this project we would like 4 scouts and 1 adult leader. Mr. Stoddard will be the second adult leader and we will have a couple of Rotarians there as well. Once we have our team, we can discuss the data and time. Each person will need to bring their own work gloves. Refreshments will be provided. For questions contact Shawn Stoddard, 775-848-8018.

Please see the pictures below for more information.

The first two pictures show the location of the fire station and the memorial from a Google street view.

These three pictures show the current conditions at the site.
