2800 West Lincolnway, Cheyenne, WY

Call hotel for your room at 307-775-8400

Registration Fee:

\$25 for guests

Register today at:

<http://clk.im/Engineers>

Vocational Theme: Engineering

Rotarians from all around our District's four-state area will be convening for a day of fellowship and learning. The vocational theme of this year's Fall Assembly is Engineering.

Our luncheon speaker will be Josh Fuller, a relatively recent graduate of the University of Wyoming where he was an active participant and ardent supporter of the University's Engineering

Without Borders (EWB) chapter.

There will also be two engineering-related workshops, one centered around the STEM program, which Rotary actively supports, and the second is one that will be focused on the international project work of EWB.

Please consider coming to learn about the work of Rotary and how it is supporting STEM and EWB.

Josh Fuller

What is Rotary?

Rotary is a global network of community volunteers.

Rotary club members are business, professional, and community leaders who meet regularly to plan and implement community service activities and network with other professionals. Members can also choose to become involved in international humanitarian service efforts.

More than 1.2 million men and women in over 200 countries and geographical areas belong to over 33,000 Rotary clubs.

Rotary builds international understanding through scholarships, exchange programs, and humanitarian projects. Rotary clubs participate in a broad range of educational, intercultural, and humanitarian activities designed to improve the lives of others.
